Methodology

Data is provided by the Petroleum Products and Pricing Regulatory Agency (PPPRA) and verified and validated by the National Bureau of Statistics (NBS)

1. Volumes refers to products discharged within a month and is based on actual quantities discharged during the month.

2. Average landing cost per month is the average landing cost (SVH) of the product during the period of discharge.

3. The value of the product is estimated value based on the average landing cost of the product as at the month of discharge.

4. Discharge Date - Date the product was received is the reference period for this report.
